

# **WEST LONG BRANCH SCHOOL DISTRICT TECHNOLOGY POLICY HANDBOOK 2022-2023**

## Taking Care of Your Chromebook

Students are responsible for the general care of the Chromebook which they have been issued by the school. Chromebooks that are broken or fail to work properly must be taken to the Tech Office. If a loaner Chromebook is needed, one will be issued to the student until their Chromebook can be repaired or replaced.

### General Precautions:

- No food or drink is allowed next to your Chromebook while it is in use.
- Cords, cables, and removable storage devices must be inserted carefully into the Chromebook.
- Students should never carry their Chromebook while the screen is open unless directed to do so by a teacher.
- Chromebooks should be shut down when not in use to conserve battery life.
- Chromebooks should never be shoved into a locker or wedged into a book bag as this may break the screen.
- Do not expose your Chromebook to extreme temperature or direct sunlight for extended periods of time. Extreme heat or cold may cause damage to the laptop.

### Screen Care

- The Chromebook screen can be damaged if subjected to rough treatment. The screens are particularly sensitive to damage from excessive pressure on the screen.
- Never pick up or carry a Chromebook by the screen.
- Do not place anything in the carrying case that will press against the cover.
- Do not lean on top of the Chromebook.
- Do not place anything near the Chromebook that could put pressure on the screen.
- Do not poke the screen.
- Do not place anything on the keyboard before closing the lid (e.g. pens, pencils, notebooks).

## Using Your Chromebook At School

The Chromebook is intended for use at school each and every day. In addition to teacher expectations for Chromebook use, school messages, announcements, calendars, academic handbooks, student handbooks and schedules may be accessible using the Chromebook. Students must be responsible for bringing their Chromebook to all classes, unless specifically advised not to do so by their teacher.

## **Managing Your Files and Saving Your Work**

Students may save documents to their Google Drive, or they may save to an external memory device such as an SD card or USB flash drive. Saving to Google Drive will make the file accessible from any computer with internet access. Students using Google Drive to work on their documents will not need to save their work, as Drive will save each keystroke as the work is being completed. Students will be trained on proper file management procedures.

## **Legal Propriety**

- All students and staff must comply with trademark and copyright laws and all license agreements. Ignorance of the law is not immunity. If you are unsure, ask the network administrator if you are in compliance with the law.
- Plagiarism is a violation of the West Long Branch discipline code. Give credit to all sources used, whether quoted or summarized. This includes all forms of media on the Internet, such as graphics, movies, music, and text.

## **Personalizing the Chromebook**

Chromebooks must remain free of any decorative writing, drawing, stickers, paint, tape or labels that are not the property of West Long Branch School District. Students may add appropriate themes, music, photos and videos to their Chromebook. Personalized media are subject to inspection and must follow the West Long Branch acceptable use policy.

## **Software on Chromebooks**

Chromebook software is delivered via the Chrome Web Store. These are web-based applications that do not require installation space on a hard drive. Some applications, such as Google Drive, are available for offline use. The software originally installed on the Chromebook must remain on the Chromebook in usable condition and easily accessible at all times. All Chromebooks are supplied with the latest build of Google Chrome Operating System (OS), and many other applications useful in an educational environment. The Chrome OS will automatically install updates when the computer is shutdown and restarted. From time to time the school may add software applications for use in a particular course. This process will be automatic with virtually no impact on students. Virus protection is unnecessary on the Chromebook due to the unique nature of its design. Students are unable to install additional software on their Chromebook other than what has been approved by the West Long Branch School District.

## Inspection

Students may be selected at random to provide their Chromebook for inspection. The purpose for inspection will be to check for proper care and maintenance as well as inappropriate material being carried into the school

## Protecting and Storing Your Chromebook

Chromebook Identification: Chromebooks are labeled with an asset tag indicating the assigned student and serial number. Under no circumstances are students to modify, remove, or destroy identification labels.

### Storing Your Chromebook

When students are not using their Chromebook, the Chromebook must always be in a safe and secure location. When not needed for class they should be stored in student lockers with the lock securely fastened or on a docking cart. Nothing should be placed on top of the Chromebook, when stored in the locker or under a desk. At the end of each day there will be time allocated for proper storage of devices. At this time all students must return their Chromebooks to the carts in their homerooms. Under no circumstances should students take their Chromebooks out of the building.

### Chromebooks Left in Unsupervised/Unsecured Areas

Under no circumstances should a Chromebook be stored in unsupervised areas. Unsupervised areas include the school grounds and campus, the cafeteria, unlocked classrooms, library, locker rooms, hallways, bathrooms, or any other entity that is not securely locked or in which there is not supervision. Unsupervised Chromebooks will be confiscated by staff and taken to the Principal's Office. Disciplinary action may be taken for leaving a Chromebook in an unsupervised location.
