

Summer Reading Assignment for Students Entering Kindergarten

It is our hope that the enclosed grade level summer reading list will encourage your child to read and spark a love of reading for the rest of your child's life. The attached summer reading list for students contains recommended books for kindergarteners. All reading logs are due to your child's teacher no later than **Friday, September 14, 2018**. *All students who have met the summer reading requirements will be recognized for their efforts in September.*

Students are being asked to complete a reading log to show that they've read for a minimum of 60 minutes a week over the course of the summer. This can be accomplished by your child reading independently or you reading to your child. If your child reads more than 60 minutes, feel free to turn in more than one log. Happy reading!

All materials including specific assignment directions, suggested book lists, and accompanying handouts can be found via the summer reading link on our district's webpage.

Summer Reading Rocks!
