

Let's protect our Earth!

Join the Green Team in collecting old batteries.

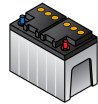

The Green Team has partnered up with the Recycle My Battery Campaign, which is a nonprofit organization started by Nihal Tammana, a 12-year-old boy from Edison, NJ. He started the program to make it easier for people to dispose of old batteries. He now has a team of 75 other kids helping to get the word out. Batteries that are not disposed of correctly can be harmful to the environment.

Let's join him and his team and help our planet!

Bring in any of the following types of old batteries:

Industrial

Vehicle

Rechargeable

Non-Rechargeable

9 Volt

Button

Battery collection will run from June 6-17th.

Batteries can be placed in the designated box outside of the office.
